Summary

Hi there! My name is Mert. I'm a Full-Stack Developer at Countly and I've been blogging to share what I've learned.

Experience

Full Stack Developer

Countly

Jun 2019 - Present (1 year 7 months +)

Countly securely processes billions of data-points on the cloud and on-premise every day. so its high-performance architectural studies have taught me a lot.

Full Stack Developer

TDSmaker

Jul 2018 - Jun 2019 (1 year)

TDSmaker is a unique web-based solution for a technical datasheets management tool of professionals. I experienced the end-to-end experience of build SaaS from scratch.

Front-end Engineer Intern

JotForm

Feb 2018 - May 2018 (4 months)

JotForm easy-to-use online form builder for every business. I created Selectable and Tooltip packages that React as a Front-end Engineer Intern.

Skills

JavaScript • TypeScript • Amazon Web Services (AWS) • React.js • Node.js • MongoDB
